Said date of implementation to be effective January 1, 2023, with Comprehensive adjustments in various fees, licenses, inspections and permits and lower priority budget cuts necessary to financially support such market driven increases. Analysis of market compensation to be internal driven based on the on-going feed-back our Management teams have received daily in this ever changing environment, and especially in the metro area. Goal is just compensation to continue to attract and sustain staff for our excellent Public Service effective January 1, 2023, and implemented by a major mid year budget adjustment as approved at a Special Called meeting by December 22, 2022.
