#### 4-12-2-025 - Employee health insurance and protected health information.

- A. Purpose: To establish privacy procedures to assure that the confidentiality of individually identifiable health information is protected, to inform employees of their privacy rights and obligations and how their protected health information (PHI) may be used and disclosed.
- B. Policy: The City of Marietta/BLW (plan sponsor) established and maintains a group health plan (the "plan") for its employees and covered dependents. The Plan is a covered entity and is required to comply with the Health Insurance Portability and Accountability Act (HIPAA) of 1996. The plan sponsor is not a covered entity but is responsible for ensuring that the group health plan is in compliance with the privacy regulations. The privacy regulations will give employees and covered dependents more control and access to their PHI. It will limit the use and disclosure of health information; enable participants to find out how their information may be used and what disclosures of their information have been made. Medical information relating to family and medical leave, fitness-for-duty and workers' compensation is not covered under the regulations. It is the policy of the City of Marietta Group Health Plan to protect the privacy of protected health information and to comply with HIPAA Standards for Privacy of Individually Identifiable Health Information. Where state law is more restrictive than the privacy regulations, Georgia state law will prevail. The city/BLW specifically reserves the right to add to, change or abolish the provisions of this policy, in whole or in part, based upon pertinent action by any appropriate legislative, judicial or regulatory authority.

#### C. Definitions:

**Covered Entities.** Health plans (includes health flexible spending accounts), health care clearinghouses and those health care providers who conduct certain financial and administrative transactions electronically.

**Protected Health Information.** Individually identifiable health information that is maintained or communicated in any form (electronic, paper, or oral) by a covered entity.

D. Uses and Disclosures of Protected Health Information (PHI):

1. Required Uses and Disclosures. The plan is required to give employees and dependents access to their own protected health information (PHI) upon request and will disclose PHI to the Secretary of the Department of Health and Human Services when needed to investigate or determine if the city/BLW is in compliance with the privacy rules.
2. Permitted Uses and Disclosures to Carry Out Treatment, Payment and Health Care Operations.
  - a. The plan and/or its business associates may use and disclose protected health information without the employee's consent, authorization or opportunity to agree or object to carry out treatment, payment or health care operations.

Treatment includes the provision, coordination or management of health care. For example, the plan may tell a doctor who is treating a covered individual that the individual has previously been treated for a condition that may affect his treatment of the individual.

As defined by the privacy rule, payment includes but is not limited to actions to make coverage determinations and payment (including billing, claims management, subrogation, plan reimbursement, reviews for medical necessity, appropriateness of care, utilization review and preauthorization). For example, the plan may tell a doctor whether the employee is eligible for coverage or what percentage of the bill will be paid by the plan.

Health care operations include but are not limited to quality assessment and improvement, reviewing competence or qualifications of health care professionals, underwriting, premium rating and other insurance activities relating to creating or renewing insurance contracts. It also includes disease management, case management, conducting or arranging for medical review, legal services and auditing functions including fraud and abuse, compliance programs, business planning and development, business management and general administrative activities. For example, the plan may use information about the employee claims to refer the employee to a disease management program, reimburse business associates for claims paid on behalf of the plan or project future benefit costs or audit the accuracy of its claims processing functions.

- b. The plan may disclose information to business associates as needed to enable them to provide business services on behalf of the plan. Business associate services may include claims administration, legal, actuarial, consulting, accounting and financial services. For example, the plan may disclose information to a consultant that performs actuarial services, cost sharing methodology, budgeting and plan design changes on behalf of the plan.

The plan requires all business associates to sign contracts agreeing:

- (1) Not to use or disclose the PHI other than as permitted by the contract or as required by law;
  - (2) Use appropriate safeguards to prevent the use or disclosure of the information other than as provided by the contract or by the privacy rules;
  - (3) Assist the plan in complying with the regulations by providing participants upon request access to protected health information disclosures.
- c. Where the plan sponsor does not already have access to PHI by virtue of its role in administering the plan, the plan will not disclose PHI to the plan sponsor except when the disclosure is:
- (1) Limited summary health information for insurance placement or settlor functions;
  - (2) Enrollment and disenrollment information;
  - (3) Involved in plan administration when the plan sponsor complies with certain administrative requirements involving an amendment of the plan document and the erection of proper firewalls; and
  - (4) Authorized by the individual to whom it applies.

The plan sponsor has amended the plan document and certified that the plan sponsor will appropriately safeguard and limit the use and disclosure of protected health information to carry out plan administration functions. Plan administration functions do not include employment-related functions or functions in connection with other benefits.

3. Uses and Disclosures that Require the Employee's Written Authorization. Any written authorization for the plan to disclose PHI other than as described herein shall be in plain language and satisfy the following requirements:
- a. It must include a description of the information to be used or disclosed that identifies the information in a specific and meaningful fashion. The authorization may by its terms apply to all health information.
  - b. It must include the name or other identification of the person or class of persons authorized to use or disclose the PHI.
  - c. The authorization must specify the name or other specific identification of the person or class of persons to whom the plan is authorized to make the requested use or disclosure.
  - d. The authorization must describe the purpose of the requested use or disclosure.
  - e. The authorization must include an expiration date or an expiration event. An expiration event must relate to the individual or the purpose of the use or disclosure.

- f. The authorization must be dated and include a signature of the individual or the individual's authorized representative. When an authorized representative signs the authorization, it must include a description of the representative's authority to act for the individual.
- g. The authorization must include a statement describing the individual's right to revoke the authorization and of the mechanism for making such a revocation, as to disclosures that have not taken place before the revocation is received by the plan.
- h. The authorization must state either that the plan may not condition treatment, payment, enrollment or eligibility on the individual's execution of an authorization or, when this is not accurate, describe the consequences of not providing the authorization.
- i. The authorization must include a statement that once information is disclosed pursuant to the authorization, the recipient's use of the information is not subject to the privacy rules.

The plan will provide the individual with a copy of the signed authorization. The plan may but is not required to maintain a standard authorization form that can be completed by covered individuals.

Generally, the plan will obtain the employee's written authorization before any uses and disclosures will be made pertaining to psychotherapy notes obtained from a psychotherapist. The plan may use and disclose such notes when needed by the plan to defend against litigation filed by the employee or covered dependent.

- 4. Uses and Disclosures that Require that the Employee be Given an Opportunity to Agree or Disagree Prior to the Use or Release. Disclosures of employees' PHI to family members, other relatives and to employees' close personal friends are allowed if the information is directly relevant to the family or friend's involvement with the employee's care or payment for that care and the employee has either agreed to the disclosure or has been given an opportunity to object and have not objected.
- 5. Uses and Disclosures for Which Consent, Authorization or Opportunity to Object is Not Required. Use and disclosure of the employee's PHI is allowed without the employee's consent, authorization or request under the following circumstances:
  - a. When required by law.
  - b. When permitted for purposes of public health activities.
  - c. When authorized by law to report information about abuse, neglect or domestic violence to public authorities.
  - d. When requested by a public health oversight agency for oversight activities authorized by law.
  - e. When required for judicial or administrative proceedings.

- f. When required for law enforcement purposes.
- g. When consistent with applicable law and standards of ethical conduct if the plan, in good faith believe the use or disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public and the disclosure is to a person reasonably able to prevent or lessen the threat, including the target of the threat.
- h. When authorized by law to a coroner or medical examiner for the purpose of identifying a deceased person, determining a cause of death or other duties as authorized by law.
- i. When authorized by and to the extent necessary to comply with worker's compensation or similar programs established by law.

Except as otherwise indicated in this policy, uses and disclosures will be made only with the employee's written authorization subject to the employee's right to revoke such authorizations.

- 6. Verification of Identity of Person Requesting PHI. The plan will verify the identity of any person requesting PHI by requesting the person's name, address, business affiliation, phone number and signature, and/or such other identification as it deems appropriate. The plan will document the responses it receives and, when appropriate, take steps to confirm that the information is accurate.
- 7. Minimum Necessary. The plan and plan sponsor will make every reasonable effort to limit their use and disclosure of PHI to the minimum necessary unless there is a specific exception to the rules. The minimum necessary standard will not apply, for example to disclosures authorized by the individual or to information that is used for treatment.
- 8. De-identified PHI. Information that has been de-identified so that all identifying information is removed may be disclosed.

#### E. Participant Rights and Responsibilities:

- 1. Right to Request Restrictions on PHI Uses and Disclosures. Participants may request that the plan restrict the use or disclosure of the participant's PHI, even for treatment, payment, or health care operations. However, the plan is not required to agree to the restriction.
- 2. Right to Inspect and Copy PHI. A participant generally has a right with some exceptions to inspect and obtain a copy of his or her protected health information. The requested information will be provided within 30 days if the information is maintained on site or within 60 days if the information is maintained offsite. A single 30-day extension is allowed if the plan is unable to comply with the deadline provided the plan notifies the participant within the original 30-day time limit.
- 3. Right to Amend PHI. Participants have a right to request amendment to the participant's PHI. The plan must comply within 60 days unless the plan did not create the PHI or believes the amendment is inaccurate. A single 30-day

extension is allowed if the plan is unable to comply within the deadline. If the request is denied, the plan will provide the participant with a written denial that explains the basis of the denial. The participant may submit a written statement disagreeing with the denial and have a statement included with any future disclosure of the participant's PHI.

4. Right to Receive an Accounting of PHI Disclosures. At the participant's request, the plan will provide the participant with an accounting of disclosures of PHI by the plan during the six years prior to the date of the request. However, the plan is not required to provide an accounting for:
    - a. Disclosures made prior to the April 14, 2003, compliance date.
    - b. Disclosures to carry out treatment, payment or health care operations.
    - c. Disclosures made to the participant.
    - d. Disclosures made under some of the exceptions, such as for law enforcement purposes.
    - e. Disclosures the individual has authorized.
  5. Right to Request Alternative Communications of PHI. Participants may request and the plan must accommodate reasonable requests by individuals to receive communications of protected health information from the plan by alternative means or at alternative locations, if the individual clearly states that the disclosure of all or part of that information could endanger the individual.
- F. Personal Representative: The employee or his or her personal representative will be required to complete a form to request access to this information. A personal representative will be required to produce evidence of his or her authority to act on the employee's behalf before that person will be given access to the employee's PHI or allowed to take any action for the employee. Proof of such authority may take one of the following forms:
1. A power of attorney for health care purposes, notarized by a notary public;
  2. A court order of appointment of the person as the conservator or guardian of the individual;
  3. An individual who is the parent of a minor child.

The plan retains discretion to deny access to PHI to a personal representative to provide protection to those vulnerable people who depend on others to exercise their rights under these rules and who may be subject to abuse or neglect. This also applies to personal representatives of minors.

To request access to PHI or to obtain a form for this purpose, please contact the benefits manager whose office is located in the human resources department. The benefits manager has 30 days to respond to the employee's request and 60 days if someone else holds the information or it is offsite. If the employee's request is denied, the employee or his or her personal representative will be provided with a written denial setting forth the basis of the denial, the complaint procedure and how the employee or

personal representative may file a complaint to the Secretary of Health and Human Services.

G. Responsibilities of Department Heads, Division Managers and Supervisors:

1. To attend training sessions on the important role supervisors and managers have in protecting the confidentiality of medical information. The training will include a discussion of the privacy policy and procedure, what PHI is and the types of PHI, complaint procedures and steps to take when reasonable suspicion exists that an employee has violated the privacy policy.
2. To maintain and post the department/and or division poster notifying employees of the plan's privacy practices in a conspicuous location.
3. To notify the privacy officer of any use or disclosure of PHI that is inconsistent with the privacy policy.
4. To agree not to use or disclose health information for employment related actions.

H. Plan Sponsor Responsibility:

1. Administration.
  - a. The benefits manager will serve as the privacy officer for the city/BLW. The privacy officer shall be responsible for the privacy program and shall regularly review the implementation of this policy and relevant privacy practices to assure that the confidentiality of individually identifiable health information is protected. If the employee has any questions regarding these policies, contact the privacy officer whose office is located in the human resources department.
  - b. The privacy officer is designated as the person to whom complaints should be brought. Contact the human resources department to reach the privacy officer or to obtain additional information about the plan's notice of privacy practices.
  - c. When performing plan administration functions on behalf of the plan, only the following employees or classes of employees will be given access to PHI to accomplish the intended purpose of the use, disclosure or request: benefits manager, payroll manager, IT director, finance director and staff designated by the benefits manager, payroll manager, finance director and IT director.
2. Safeguards. The plan will comply with the security standards of the Act and have implemented technology and security policies to protect the personal data that is under the plan's control from unauthorized access, improper use or disclosure, alteration, and unlawful or accidental destruction. The IT director will serve as the security officer. The security officer and privacy officer have the responsibility of monitoring the program and maintaining appropriate administrative, technical and physical safeguards to protect the privacy of protected health information. The safeguards implemented include, but are not limited to:
  - a. Requiring all employees and business associates who have access to or are associated with the processing of employee data to respect the employee's

confidentiality. If the plan discovers that an employee or business associate has intentionally or unintentionally disclosed personal information about any of the participants, the plan will take immediate action to prevent further occurrences.

- b. Providing training classes on the privacy and security policies and procedures to all employees involved in payment, health care operations and security. Training will also be provided to all new employees with plan administration responsibilities within a reasonable period of time after the employee joins the workforce. If there is a material change in the policies and procedures, retraining will be provided to all employees whose functions are affected by this material change.
  - c. Requiring all employees involved in health care operations and security or having potential access to health care information to sign a confidentiality agreement to respect the confidentiality of PHI.
  - d. Developing appropriate firewalls to prevent individuals from accessing health information without authorization, including creating and using passwords and changing them periodically to limit access to unauthorized individuals and storing paper records in locked file cabinets or storage rooms.
  - e. Maintaining and storing information in a physically secure area and destroying records according to record retention schedules.
3. Complaints.
- a. The employee and covered dependents may file a complaint with the privacy officer or the Secretary of the U. S. Department of Health and Human Services, 200 Independence Avenue S.W., Washington, D.C. 20201, if the employee or covered dependent believes that his or her privacy rights have been violated. A complaint should be filed within a reasonable time after the employee or covered family member discovers that his or her privacy rights have been violated. The employee and covered dependent is encouraged to contact the privacy official initially to resolve complaints before seeking outside assistance.
  - b. Although supervisors and managers of the city/BLW are to take appropriate action when they have reason to suspect that the privacy policy has been violated, employees should not assume that the privacy officer or security officer is aware of any problem.
4. Formal Privacy Rights Complaint Procedure. Any employee who, in good faith, believes his or her privacy rights have been violated should:
- a. Complete the city/BLW PHI complaint form and submit the completed and signed form to the privacy officer with a copy to the human resources director within seven calendar days following the incident that led the employee to believe that his or her privacy rights have been violated. The privacy officer has the authority and responsibility to investigate all complaints brought to his or her attention.

- b. Describe the infraction in detail including persons involved (if known), PHI involved, dates and relevant facts.
  - c. The privacy officer will meet with the employee and document what the employee perceives the complaint to be and what remedy the employee believes should be taken if the complaint is upheld.
  - d. The privacy officer will interview all individuals involved in the complaint and other employees who have access to the PHI in question by virtue of carrying out the employees' job duties on behalf of the plan.
  - e. The privacy officer will review all the facts and provide a detailed report of his or her findings to the human resources director within seven calendar days following receipt of the complaint.
  - f. The human resources director will review the evidence and supporting documentation and communicate a decision in writing to the employee within seven calendar days following receipt of the privacy officer's report.
  - g. If the human resources director's decision does not resolve the privacy issue to the satisfaction of the employee, the employee may file a formal complaint as outlined in Article 4-4-22 of the personnel rules and regulations (Grievance and Appeals Policy) and initiate the complaint at step 3. The employee must submit the complaint with all supporting documentation including a copy of the director of personnel's decision to the city manager within seven calendar days from receipt of the human resources director's decision.
  - h. The city manager will review the documentation and communicate a decision in writing to the employee within 30 days following receipt of the written complaint. Such decision will exhaust all remedies with the plan sponsor.
  - i. At all times during the investigation, reasonable steps will be taken to maintain confidentiality of the case within the limits of federal and state law. Employees will not be retaliated against for filing a complaint about the plan's privacy and security practices.
5. Remedial Action. If the evidence indicates that the employee or covered dependent's privacy has been breached, appropriate disciplinary action will be taken. Depending on the severity of the action and its damaging effects to the complainant, the violator(s) shall be subject to appropriate disciplinary action up to and including termination of employment.
  6. Mitigation. The plan will make reasonable efforts to mitigate any harmful effects the complainant experiences arising from the use or disclosure of protective health information that violates the privacy or security rules or the plan's privacy policy and practices.

- C.
  - 1. If an eligible employee, who was hired prior to November 14, 1996, chooses dependent health insurance coverage, the City of Marietta shall pay 80 percent of the calculated premium cost, as determined by the City of Marietta, for dependent coverage of any city-sponsored health insurance plan that the employee selects.

#### 4-12-2-040 - Retiree health insurance.

- A. All full-time employees hired between August 14, 1991 and October 31, 2006, may continue their health insurance coverage after retirement from active service. Effective July 1, 2003, the city/BLW will contribute toward the cost of retiree health insurance for such employees on the following basis:
  - 1. 20+ years of employee service. If hired after August 14, 1991, and before November 14, 1996, the city will contribute 100 percent of the calculated premium cost of retiree health care coverage (HMO and PPO plans). If hired between November 14, 1996 and October 31, 2006, the city/BLW will contribute 100 percent of the calculated premium cost of the retiree coverage on the city/BLW's basic health care plan (currently the HMO plan). The city/BLW will not contribute to the calculated premium cost of retiree dependent coverage except that the calculated premium cost to the retiree if he/she elects to cover such dependents will be frozen at time of retirement.
  - 2. 15—19 years of employee service. If hired after August 14, 1991, and before November 14, 1996, the city/BLW will contribute 80 percent of the calculated premium cost of retiree health care coverage (HMO and PPO plans). If hired between November 14, 1996 and October 31, 2006, the city/BLW will contribute 80 percent of the calculated premium cost of the retiree coverage on the city/BLW's basic health care plan (currently the HMO plan). The calculated premium cost to the retiree for retiree coverage will be frozen at time of retirement. The city/BLW will not contribute to the calculated premium cost of retiree dependent coverage and rate increases for dependent coverage will be passed on to the retiree as they occur.
  - 3. 10—14 years of employee service. If hired after August 14, 1991, and before November 14, 1996, the city/BLW will contribute 50 percent of the calculated premium cost of retiree health care coverage (HMO and PPO plans). If hired between November 14, 1996 and October 31, 2006, the city/BLW will contribute 50 percent of the calculated premium cost of the retiree coverage on the

city/BLW's basic health care plan (currently the HMO plan). The calculated premium cost to the retiree for retiree coverage will be frozen for such employees at time of retirement. The city/BLW will not contribute to the calculated premium cost of retiree dependent coverage and rate increases for dependent coverage will be passed on to the retiree as they occur.

4. Less than 10 years of employee service. If hired between August 14, 1991 and October 31, 2006, the employee may continue their health coverage after retirement from continuous, active service, but the retired employee must pay 100 percent of the retiree calculated premium cost and 100 percent of the dependent calculated premium cost if the retiree elects dependent coverage and all rate increases thereon.
  5. The city/BLW regularly monitors the marketplace for legitimate opportunities to reduce the cost of retiree health care coverage without reducing or otherwise negatively impacting such coverage. When such opportunities are identified and implemented, the city/BLW desires to be able to pass some or all of the resulting cost reductions on to the retirees receiving such coverage. To this end, for purposes of Section 4-12-2-40, the term "frozen at retirement" henceforth shall mean that the calculated premium cost to the retiree for retiree coverage shall not exceed the cost paid by the retiree at the time of his/her retirement. As so defined, nothing in Section 4-12-2-40 shall preclude the city/BLW, in its sole discretion, from reducing the calculated premium cost to the retiree below the cost paid by the retiree at the time of his/her retirement when the circumstances described above so permit. Likewise, in the event the calculated premium cost to the retiree is so reduced, the city/BLW reserves the right to increase said premium cost up to, but not in excess of, the cost paid by the retiree at the time of his/her retirement. Nothing in this section is intended or shall be interpreted or applies as granting any retiree a vested or enforceable right to retiree coverage at a premium cost below the cost he/she paid at the time of his/her retirement.
- B. All full-time employees hired on or after November 1, 2006, with a minimum of 10 years full-time continuous, active service may continue their health care coverage after retirement provided such health care coverage is elected and provided by the City of Marietta at time of retirement. Effective November 1, 2006, the city/BLW will contribute toward the cost of this retiree health insurance on the following basis for such employees:
1. 20+ years of continuous employee service for those employees hired on or after November 1, 2006. The city/BLW will contribute 85 percent of the calculated premium cost of retiree single coverage for the City/BLW's basic health care plan (currently the HMO). Such benefit will be limited to cover the city/BLW retiree only. The dollar amount of the retiree contribution will not be frozen and will increase as the calculated premium cost for coverage increases to the city/BLW. The city/BLW will not contribute to the calculated premium cost of retiree dependent coverage and rate increases for dependent coverage will be passed on to the retiree as they occur.

2. 10—19 years of continuous employee service for those employees hired on or after November 1, 2006. The city/BLW will not contribute toward the calculated premium cost of any retiree health plan chosen by the retired employee. The employee may purchase city/BLW group retiree health care coverage and dependent health care coverage, but will be responsible for 100 percent of all incurred costs including future rate increases on any plan selected.
  3. Less than 10 years of continuous employee service for those employees hired on or after November 1, 2006. Employees who retire with less than ten years' service are not eligible to purchase retiree or dependent health care coverage through the City of Marietta/BLW.
- C. No current terminated vested retiree nor any employee who will subsequently receive a terminated vested retirement benefit is eligible to receive health insurance benefits from the city.

(Code 1978, § 4-3003.1; Ord. No. 4928, 8/14/91; Ord. No. 5575, 6/12/96; Ord. No. 6490, 3/12/2003, § 1; Ord. No. 6963, 9/13/2006, §§ 4—6; Ord. No. 7766, 10/8/2014, § 1)

- B. Each new employee hired after the effective date of the plan shall be eligible to participate in the plan on the first day of the month immediately following or coinciding with the date he completes one (1) year of continuous service; provided, however, that he has not attained age sixty-one (61), or age fifty-one (51) if such employee is employed as a permanent policeman or fireman, whichever is applicable.
- C. Any eligible employee whose employment terminates and who later resumes employment in an eligible employee level shall be considered a new employee as of his date of reemployment unless he meets one of the following conditions:
  - 1. A former participant who is reemployed in an eligible employee level within one (1) year after termination of his employment with the city may resume participation on the first day of the month immediately following or coinciding with his reemployment, but the time he was absent shall not be taken into account for the purpose of calculating retirement or termination benefits under the plan.
  - 2. A former participant who is reemployed in an eligible employee level after a period of involuntary service in the Armed Forces of the United States, and who meets the provisions of article III, section 4d, may resume participation on the first day of the month coinciding with or next following the month in which he is reemployed, but the time he was absent shall not be taken into account for the purpose of calculating retirement or termination benefits under the plan unless otherwise authorized by the governing authority.

3. A former participant who is reemployed in an eligible employee level after being on an authorized leave of absence and who meets the provisions of article III, section 4D, may resume participation on the first day of the month coinciding with or next following the month in which he is reemployed in accordance with the terms of the leave as approved by the governing authority.
- D. Each elected or appointed member of the governing authority who holds an elected office of the city on the effective date of this amendment shall be qualified to apply for participation on such effective date. Each other elected or appointed member of the governing authority who holds an elective office of the city subsequent to the effective date of this amendment shall be qualified to apply for participation in the plan on the first day of the month immediately following or coinciding with the first date he occupies any elective office of the governing authority after the effective date of this amendment.
  - E. Any eligible employee who terminates employment as a public safety participant under the 4022 plan, and who moves to a general employee position on or after June 1, 1999, shall participate in the consolidated retirement plan, adopted by Ordinance No. 4532, on the first day of the pay period immediately coinciding with the employee's change to such position. The employee shall have no right whatsoever to participate or become eligible to participate in the general employee portion of the retirement plan adopted by Ordinance No. 4022 as such portion has been terminated by the city. The employee also has no right to continue participation in the public safety portion of the retirement plan adopted by Ordinance No. 4022 after the employee moves to a general employee position. However, the employee shall be entitled to a vested right in his accrued retirement benefits, and shall have the option to receive benefits upon retirement as a public safety participant under the 4022 plan from the time the employee became eligible to the date the employee moves to a general employee position and benefits under the consolidated retirement plan from the date the employee changes to a general employee position to the date of retirement, or the employee may waive all rights to receipt of benefits under the 4022 plan and have all benefits calculated under the consolidated retirement plan at the date of retirement.

(Ord. No. 6064, 11/10/1999, § 2)

#### Section 4. Participation.

- A. Each eligible employee (except any employee that is a participant or eligible to become a participant in the consolidated retirement plan adopted by Ordinance 4532), who meets the qualifications for participation as set forth in article III, section 3, shall become a participant in the plan on the first day of the month coinciding with or next following the date he completes the above mentioned qualifications for participation.
- B. Participation in the plan shall not give any eligible employee the right to be retained in the employ of the city nor, upon dismissal, to have any right or interest in the trust fund other than is herein provided.

- C. For other than elected and appointed members of the governing authority, participation shall be deemed to be automatically terminated by a quit, resignation or discharge, by lapse of recall rights after layoff, by ceasing to be an eligible employee as defined herein, or by failure to return to service as an eligible employee at the end of an approved leave of absence. Participation shall be deemed to be automatically terminated for an elected or appointed member of the governing authority upon vacation of elective office.
- D. The governing authority shall determine the date of expiration of any leave of absence granted to a participant, other than an elected or appointed member of the governing authority, and if such participant has not returned to his regular employment as an eligible employee in accordance with such determination, his interest, if any, under the plan shall only be such as existed at the commencement of such leave of absence. If a leave of absence has been or is granted to a participant other than an elected or appointed member of the governing authority for the purpose of involuntary service in the Armed Forces of the United States or for some other purpose as approved by the governing authority, he shall for the purposes of the plan not be deemed to have broken continuity of credited future service (but such periods of absence shall not be counted as credited future service for the purpose of computing a pension hereunder unless the leave, as authorized by the governing authority, specifically permits such participant to continue accumulating credited future service during the authorized leave of absence) provided:
  - 1. Such a participant was regularly employed by the city immediately prior to his leave of absence, and
  - 2. He makes application for reemployment on or before the date of expiration of any leave of absence or within ninety (90) days after he first becomes entitled to his discharge or release from involuntary service in the Armed Forces of the United States, and
  - 3. He is reemployed as an eligible employee within ninety (90) days after such application.
- E. Each elected or appointed member of the governing authority who meets the qualifications for participation in the plan as set forth in article III, section 3, shall become a participant in the plan upon completing one year of service.

(Ord. No. 4661, 8/10/88, § 1)

ARTICLE IV  
Retirement Eligibility and Dates

Section 1. Retirement eligibility.

- A. The retirement prerequisites of a participant under this plan are contingent upon the method of retirement selected by such participant; that is, normal retirement, early retirement, delayed retirement, or disability retirement; and whether or not such participant is a full-time employee. The prerequisites associated with each retirement method or employment status shall be as specified below in pertinent provisions of sections 2, 3, 4, 5, and 6, respectively, of this article IV.
- B. Retirement under the plan is contingent upon the satisfactory completion of a prescribed form provided for such purpose and the acceptance of the retirement application by the pension committee.
- C. Retirement applications shall be prepared and submitted at such time as to reach the office of the provider no earlier than ninety (90) days and no later than thirty (30) days prior to a participant's effective retirement date.

Section 2. Normal retirement date.

- A. Except as otherwise provided in section 4A(1) of this article IV, the normal retirement date of a participant shall be the first day of the month coinciding with or next following the date he has attained:
  - 1. Age fifty-five (55) and has completed a minimum of five (5) years of total credited service for Level 1 employees as defined in article III, section 2.
  - 2. Age sixty-five (65) and has completed a minimum of five (5) years of total credited service for Level 2 employees as defined in article III, section 2, who are full-time employees.
  - 3. Age sixty-five (65) and has completed a minimum of ten years of total credited service for Level 2 employees, as defined in article III, section 2, who are elected or appointed members of the governing authority.
- B. A participant shall retire from the employment of the city on his normal retirement date except as otherwise provided in sections 3, 4, 5, and 6, of this article IV.

Section 3. Early retirement date.

A participant may retire from the service of the city on the first day of any month prior to his normal retirement date, provided he has a minimum of five (5) years of total credited service and has attained age forty-five (45) if such participant is a Level 1 employee, or age fifty-five (55) if such participant is a Level 2 employee, as defined in article III, section 2.

#### Section 4. Delayed retirement date.

- A. A participant other than an elected or appointed member of the governing authority may continue employment with the city beyond the normal retirement age under any one of the following conditions:
1. If such participant has not completed five (5) years of total credited service under the plan when he attains the normal retirement age, he has the option to retire with his accrued monthly retirement benefit at that date, or continue his employment until the earlier of:
    - a. Completion of five (5) years of total credited service, or
    - b. Attainment of age sixty (60) if such participant is a Level 1 employee, or age seventy (70) if such participant is a Level 2 employee, as defined in article III, section 2.
    - c. If such participant does not elect to retire at the normal retirement age, (a) or (b) above shall become his normal retirement date and upon actual retirement he shall receive the retirement benefit for which he became eligible at the occurrence of (a) or (b) above.
- B. Subsequent to the first anniversary of the effective date, retirement may not be delayed beyond age sixty (60) for a participant who is a Level 1 employee, or age seventy (70) for a participant who is a Level 2 employee, as defined in article III, section 2.

#### Section 5. Disability retirement date.

A participant may retire under the provisions of the plan on the first day of the first calendar month in which a participant becomes entitled to receive disability benefits under article VIII. Upon actual retirement, such participant shall receive the disability retirement benefit provided in article V, section 4, or any other retirement benefit granted under the plan for which he is eligible if such benefit is greater than the aforesaid disability retirement benefit. However, under no circumstances shall any retired participant be entitled at one time to more than one type of retirement benefit granted under the plan.

#### Section 6. Elected and appointed members of the governing authority.

If an elected or appointed member of the governing authority is holding an elective office of the governing authority when he becomes eligible for normal retirement as provided in this article IV, section 2.A.3., his retirement shall be delayed until the first day of the month coinciding with or next following the date he vacates such elective office.

Section 7. Alternate retirement date.

A participant may elect an alternate retirement option, based on the eligibility requirements for an unreduced early retirement under section 5 of article V of Exhibit B of City Code Section 4-12-6-010, known as the Consolidated Retirement Plan for the Employees of the City of Marietta, Georgia. A participant may retire from the service of the city at any time after the date that the sum of his age and credited service equals at least 80.

(Ord. No. 6509, 5/14/2003, § 1)

ARTICLE V  
Retirement Benefits

Section 1. Normal retirement benefit.

A. Reserved.

1. Reserved.

2. The monthly retirement benefit is a. or b., whichever is greater:

- a. One and one-third percent (1.33%) of the final average earnings of the participant, multiplied by total years of credited service plus credit granted pursuant to article II, section 45, divided by twelve (12); or
- b. The monthly retirement benefit as computed under the plan formerly in existence prior to January 1, 1984; said benefit shall be calculated in accordance with Appendix "A".

B. The following provisions shall apply to the calculation of a. above:

1. Credited past service.

- a. Credited past service shall be the amount of past service of a participant. Breaks in regular full-time employment prior to the effective date of the plan followed by five (5) years of service or leave of absence will not break continuity of service but the time absent will not be considered as a period of credited past service.
- b. Any full-time eligible employee who does not elect to become a participant as of the date he is first qualified to do so may elect to become a participant on the first day of any succeeding month; provided, however, that the credited past service of such participant shall not include the period of service from the date he was first qualified to become a participant to the date he elects to become a participant, or any creditable past service due him on the date he was first qualified to become a participant under the plan; and, further provided that he has enough time remaining until normal retirement age to accrue at least five (5) years of total credited service.

2. Credited future service shall be as defined in article II, section 27, and limited to time spent as a participant in the service of the city, except as provided in article III, section 4.D. Breaks in any tenure of elective office of an elected or appointed member of the governing authority will not break continuity of service but the time absent will not be considered as a period of credited future service.
  3. Total credited service, both past and future, shall be the sum of credited past and credited future service. The amount of total credited service for any participant shall be unlimited except that:
    - a. No credit will be given for service performed as an eligible employee of the city which precedes a participant's most recent date of employment as a new employee; and
    - b. Total credited service shall not exceed the total calendar years and complete months during which a participant was either an eligible employee or an elected or appointed member of the governing authority or both.
  4. Final average earnings shall mean the average of the annual earnings paid to a participant during any consecutive three (3) year period preceding his actual date of retirement in which his earnings were highest; or if he had less than three (3) years of total credited service, then his final average earnings shall be his average earnings for his total credited service.
  5. Maximum annual earnings to be used for computing final average earnings shall be unlimited.
  6. Final average earnings as defined in subparagraph (4) above shall be used for computing the monthly retirement benefit except as herein otherwise provided.
  7. Full months of credited past and future service shall be treated as fractions of one (1) year. Partial months shall not be included in the calculation.
- C. An employee who retired under the provisions of any superseded plan prior to November 1, 1973, shall be entitled to a monthly benefit in addition to any benefit he is now receiving, effective the first day of September, 1977, and payable on the first day of each month thereafter. The amount of said monthly benefit shall be the difference between (a) the benefit such retired employee is now receiving from New England Life Insurance Company under the terms of the superseded plan and (b) the amount he would have received as a Class 2 participant under the terms of article V, section 1.A. of this plan if this plan had been in effect at the time of his retirement. Any payments made pursuant to this paragraph shall cease upon the death of the retiree.

(Ord. No. 5923, 11/11/98, § 3; Ord. No. 5939, 12/10/98, §§ 1, 2; Ord. No. 6339, 12/12/2001, § 2)

## Section 2. Early retirement benefit.

A participant, upon retirement on his early retirement date, shall, at his election, receive either:

- A. The amount of each monthly retirement benefit for early retirement shall be computed in the same manner as for a normal retirement benefit, but the benefit so computed shall be reduced by .167% for each full month retired early from age fifty-five (55); or
- B. A delayed monthly retirement benefit under which payment shall commence on the first day of the month coinciding with or next following the retired participant's fifty-fifth (55th) birthday if such participant is a Level 1 employee, or sixty-fifth (65th) birthday if such participant is a Level 2 employee, as defined in article III, section 2, and shall be payable on the first day of each month thereafter during the lifetime of the participant. The amount of each monthly retirement benefit shall be computed in the same manner as for a normal retirement benefit.

(Ord. No. 5922, 11/11/98, § 1)

## Section 3. Delayed retirement benefit.

The delayed retirement benefit shall be calculated in the same manner as the normal retirement benefit, and said benefit shall be increased actuarially due to the participant's actual age at retirement in accordance with the tables set forth in Appendix F.

Notwithstanding anything contained herein to the contrary, in no event may distribution of a participant's retirement benefit commence later than the first day of April in the calendar year following the later of (a) the calendar year in which the participant attains age 70½, or (b) the calendar year in which the participant retires. If, as of January 1, 2002, a participant is an employee in active employment with the employer and is receiving distributions on account of his attaining age 70½, the participant shall continue to receive plan distributions.

The following rules shall apply for purposes of determining the required minimum distribution to participants and designated beneficiaries (as defined below) for calendar years beginning on and after January 1, 2003, even if, in the case of a designated beneficiary, the participant died before 2003.

- (a) Required distribution. Nothing in this section shall be deemed to extend any death benefit or permit any beneficiary designation or payment form not otherwise provided or permitted under this plan. This section 3 shall, instead, be deemed to limit and modify any provision of this Plan to the extent that such limitation or modification is necessary to ensure that the plan complies with this section 3, Code Section 401(a)(9) and the regulations thereunder.

The entire interest of each participant in this plan will be distributed, beginning not later than the required beginning date described above, over the life of such participant or over the lives of such participant and his or her designated beneficiary, or over a period not extending beyond the life expectancy of such

participant or the life expectancy of such participant and his or her designated beneficiary.

- (b) Death of participant after distribution has begun. If distribution of a participant's interest has begun in accordance with the paragraph (a) above (i.e., distributions on or after the required beginning date), and if the participant dies before his or her entire interest has been distributed to him, then the remaining portion of such interest will be distributed at least as rapidly as under the method of distribution being used under paragraph (a) as of the date of the participant's death.
- (c) Death of participant before distribution has begun. If a participant dies before distribution of the participant's interest has begun in accordance with paragraph (a) above (i.e., no distributions have been made on or after the required beginning date), the entire interest of the Participant must be paid over whichever of the following periods is applicable:
  - (i) If one or more Designated Beneficiary is not the Participant's Spouse, the distribution period shall be the Designated Beneficiary's remaining life expectancy.
  - (ii) If the sole Designated Beneficiary is the Participant's Spouse, the distribution period shall be the Spouse's remaining life expectancy.
  - (iii) If there is no Designated Beneficiary, the entire benefit (if any is payable) shall be distributed by the end of the calendar year that includes the fifth anniversary of the Participant's death.

Distributions under paragraph (c)(i)—(iii) above shall commence as follows:

- (x) Distributions under (c)(i) (i.e., distribution to a non-spouse designated beneficiary) shall begin on or before the end of the calendar year that begins immediately after the calendar year in which the participant died.
  - (y) Distributions under (c)(ii) (i.e., distribution to a spousal designated beneficiary) shall begin on or before the later of the end of the calendar year immediately following the calendar year in which the participant died and the end of the calendar year in which the Participant would have attained age 70½.
- (d) Form of distribution. Any distribution payable under this section 3 may be paid in any optional form of benefit that is available under the plan, provided that all consent and eligibility requirements under the plan are satisfied. Any annuity form of distribution payable under this plan, however, must satisfy the following requirements:
    - (i) The distribution must be in the form of a periodic annuity for the Participant's life, or for the joint life expectancy of the Participant and Designated Beneficiary or over a period certain that does not exceed the maximum length of the period certain determined under the Regulations.
    - (ii) The interval between payments must be uniform over the entire distribution period and must not exceed one year.

- (iii) If payments have commenced over a period certain, the period certain may not be changed.
- (iv) Distributions in the form of a life annuity must satisfy the minimum distribution incidental benefit (MDIB) requirement of Code Section 401(a)(9)(G) and Treasury Regulation 1.401(a)(9)-6T, A-2, or any successor regulation thereto.
- (v) All payments, either in the form of a life annuity or over a period certain must either be non-increasing or increase only in accordance with the rules set forth in Treasury Regulation 1.401(a)(9)-6T, A-1.

For purposes of this Section 3, references to a life annuity shall include an annuity for the joint life expectancy of the Participant and the Designated Beneficiary.

- (e) Incidental death benefit requirement. Any optional form of benefit elected by the participant or designated beneficiary must comply with the minimum distribution incidental benefit requirement of Code Section 401(a)(9)(G). This rule insures that the retirement benefits payable under the plan are more than incidental.
- (f) Pension board's discretion. The pension board for the city shall have the sole authority and full discretion to apply the provisions of this section 3 to any benefit option elected by the participant or designated beneficiary. The plan administrator may, for example, modify a participant's selection of an optional form of benefit to satisfy the incidental death benefit requirement by requiring, at its discretion, that the participant select another form of benefit or another contingent annuitant, or by modifying the form of benefit so that it complies with the applicable rules.
- (g) Definitions. The following definitions shall apply to this section 3, notwithstanding anything contained herein to the contrary.
  - (i) Designated beneficiary. The term "designated beneficiary" shall be determined in accordance with the definition of "beneficiary" in the regulations, notwithstanding that this definition may be different from that set forth elsewhere in this plan, provided that any individual who is a designated beneficiary must also be a beneficiary (but not necessarily all of the beneficiaries) as defined in this plan. Each beneficiary, as defined in the plan, however, need not be a designated beneficiary in the event, for example, that a beneficiary disclaims his interest under this plan.
  - (ii) Spouse. "Spouse" shall mean "spouse" as defined in the regulations. Nothing in this section 3 shall be deemed, however, to extend any death benefit or permit any beneficiary designation or payment form not otherwise provided or permitted under this plan.

- (iii) Regulations. "Regulations" shall refer to the Treasury Regulations (including temporary regulations) promulgated under Code Section 401(a)(9), as set forth in Treasury Regulations 1.401(a)(9)-1 through 1.401(a)(9)-6T, and any additional guidance issued by the IRS in the form of revenue rulings, notices and other guidance published in the Internal Revenue Bulletin or any successor thereto.

(Ord. No. 6340, 12/12/2001, § 3; Ord. No. 6483, 2/12/2003, § 2(2))

#### Section 4. Disability retirement benefit.

The amount of the disability retirement benefit shall be calculated in the same manner as the normal retirement benefit with no actuarial reduction for age imposed. In no event, however, will a participant's disability retirement benefit be less than fifty percent (50%) of the average of the participant's most recent 12 months of earnings preceding his termination of employment as a result of a disability. Upon retirement on his disability retirement date, a participant shall receive a monthly retirement benefit commencing on the first day of the month coinciding with his disability retirement date and payable on the first day of each month thereafter so long as his disability continues.

(Ord. No. 6465, 11/13/2002, § 1)

#### Section 5. Cost-of-living adjustment.

- A. The amount of the benefits payable under this plan to a participant classified as a Level 1 employee as defined in article III, section 2, or his beneficiary, shall be adjusted by the current average cost-of-living index figure as provided herein.
- B. The current average cost-of-living index figure shall be ascertained as of August 1 in each year.
- C. Each monthly retirement benefit then being received shall thereupon be adjusted as follows:
  - 1. Each monthly retirement benefit shall be increased by a percentage equal to the percentage representing the current average cost-of-living index figure divided by each recipient's cost-of-living base figure. If the current average cost-of-living index figure is less than the average cost-of-living index figure determined on August 1 of the previous calendar year, no reduction in the monthly retirement benefit shall be effected.
  - 2. Notwithstanding the foregoing provisions, no increase in the amount of a monthly retirement benefit due to changes in the current average cost-of-living index figure effective at any annual adjustment date August 1 shall be in excess of an average increase of four percent (4%) of the amount of the monthly retirement benefits payable immediately prior to such participant's or beneficiary's applicable adjustment date.

## Section 6. Suspension of benefits.

- A. Any retirement pension payable under this plan to any participant who shall have retired or been retired pursuant to any provisions of article IV or whose service with the city shall have terminated on or after his vesting date shall be suspended as of the date he is reemployed by the city on a full-time basis if retired under article IV, sections 1, 2, 3 and 5 or in any capacity (full-time or less than full-time) if retired under the provisions of article IV, section 4 or holds an elective office of the governing authority except as otherwise provided herein and shall be resumed as of the first day of the month coinciding with or next following his subsequent retirement. In any case where the payment of a participant's retirement pension shall have been so suspended, the retirement pension payable on his subsequent retirement (whether before or after his normal retirement date) shall be the benefit computed in accordance with this article V on the basis of his aggregate credited service, and for an eligible employee on the basis of his final average earnings, at the time of his subsequent retirement, but reduced on an actuarial basis by the value of an early retirement benefits received by him prior to being reemployed as an eligible employee or return to elective office, except that the resulting benefit shall not be less than the benefit payable at the time of his previous retirement. For the purposes of this section 6, any such participant's credited service subsequent to his reemployment by the city or holding of an elective office of the governing authority shall commence as of the date of his reemployment as an eligible employee or as of the date his term of elective office begins, whichever is applicable.
- B. Any disability retirement pension payable under this plan to any participant who shall have retired or been retired pursuant to any provisions of article IV, section 5, shall be suspended as of the date his disability ceases. In any case where the payment of a participant's disability retirement pension shall have been so suspended, said period of absence from employment due to such disability shall be treated as a leave of absence without pay and the provisions of article III, section 4 shall apply except that such period of absence shall not be counted as credited future service. Any participant who shall have retired or been retired pursuant to the provisions of article IV, section 5 and who dies or who has been or shall be subsequently declared ineligible for a disability retirement benefit because of a cessation of said disability shall have a right to any benefit afforded under any other provision of this plan to which he or his beneficiary might otherwise be entitled. In such a case any disability retirement payments made prior to the date his disability ceases or is declared to no longer exist shall be retained by the retiree and disregarded in computing any other benefit payable under this plan.

(Ord. No. 6284, 9/12/2001, § 1)

## Section 7. Alternate retirement benefit.

The alternate retirement benefit shall be calculated in the same manner as the unreduced early retirement benefit in accordance with section 5 of article V of Exhibit B of City Code Section 4-12-6-010, known as the Consolidated Retirement Plan for the

Employees of the City of Marietta, Georgia. The participant shall be entitled to elect to receive the benefit in any one of the forms of payment described in article VII of Exhibit B of City Code Section 4-12-6-010, known as the Consolidated Retirement Plan for the Employees of the City of Marietta, Georgia.

If this alternate retirement benefit is voluntarily elected by the participant, then:

1. The participant shall forfeit any and all rights now and in the future to the cost-of-living adjustment set forth in section 5 of article V of this plan, Exhibit A of City Code Section 4-12-4-010, known as the 4022 Retirement Plan. However, any cost-of-living adjustment approved under Exhibit B of City Code Section 4-12-6-010, known as the Consolidated Retirement Plan for the Employees of the City of Marietta, Georgia shall be provided to the participant;
2. Survivor benefits shall not be payable upon the death of participant, notwithstanding any other provision to the contrary, unless post-retirement benefits are provided under the optional form of payment elected by the participant at retirement; and
3. The participant's spouse (if married at retirement) must consent to the election of this retirement option.

(Ord. No. 6509, 5/14/2003, § 2)

## ARTICLE VI Optional Form of Retirement Income

### Section 1. Election of optional retirement benefit.

A participant may elect, or may revoke said election, at any time prior to his actual retirement date, to have his retirement benefit payable under the option hereinafter set forth in lieu of the retirement benefit he is otherwise entitled to receive. The option shall only be available if the participant retires at his normal retirement date. The benefit shall be paid in accordance with the terms of said option. Election of said option shall be made by the participant in writing.

Any optional form of benefit elected by the participant must comply with the minimum distribution incidental benefit requirement of proposed Treasury Regulation 1.401(a)(9)-2, or its successor. This rule ensures that the retirement benefits payable under the plan are more than incidental.

(Ord. No. 6340, 12/12/2001, § 4)

### Section 2. Description of option.

The amount of the optional retirement benefit set forth below shall be the actuarial equivalent of the amount of benefit that would otherwise be payable to the participant under article V.

Option A: Social Security option. An increased retirement benefit payable to the participant during his lifetime until his retirement benefits commence under O.A.S.D.I. and a decreased retirement benefit payable thereafter for life in order to have a more level retirement income when such decreased retirement benefit is added to his primary benefits under O.A.S.D.I. determined as of his early retirement date; said benefit shall be computed in accordance with the tables set forth in Appendix "C". At the death of the participant all payments will cease and no further benefits will accrue to the estate of the participant or to other persons except as provided in article III, section 2. This option shall be known as Option A. If the benefit determined to be payable from the plan, when O.A.S.D.I. benefits commence, results in a negative balance, this option cannot be elected.

(Ord. No. 4548, 4/8/87, § 1)

### Section 3. Cancellation of election.

The election by a participant of said option in section 2 of this article VI shall be null and void if the participant shall die before benefits commence.

## ARTICLE VII

### Death or Termination of Employment

#### Section 1. Death prior to retirement.

- A. If the employment or term of elective office of a participant is terminated by reason of his death prior to his retirement in accordance with the provisions of article IV, there shall be payable to his designated beneficiary a monthly death benefit actuarially equivalent to the participant's anticipated normal retirement benefit assuming that his age at the time of his death is fifty-five (55) if he is a Level 1 employee, or sixty-five (65) if he is a Level 2 employee, as defined in article III, section 2; said benefit shall be computed in accordance with the tables set forth in Appendix "D".
- B. Designation of a beneficiary prior to retirement may be changed by the participant in writing at any time prior to actual retirement on a form provided for that purpose. Only the last such designation of a beneficiary prior to retirement will have effect and any new designation of a beneficiary prior to retirement invalidates, supersedes, and revokes any prior designation.

(Ord. No. 4485, 7/9/86, § 1; Ord. No. 4500, 8/13/86, § 1; Ord. No. 4653, 7/13/88, § 1 (Exhibit B))

#### Section 2. Death after retirement.

Upon the death of a participant subsequent to his retirement in accordance with article IV, sections 1, 2, 3, 4, 5, or 6, a monthly death benefit shall be paid to his designated beneficiary, said benefit shall be computed in accordance with the tables set forth in Appendix "E".

(Ord. No. 4485, 7/9/86, § 1; Ord. No. 4653, 7/13/88, § 1 (Exhibit B))

- C. No amendment shall operate to deprive any participant or beneficiary of any rights or benefits irrevocably vested in him under the plan prior to such amendment except that the governing authority may make any and all changes and modifications necessary to qualify the plan or to keep the plan qualified under the Internal Revenue Code and the regulations thereunder, or any amendment thereto.

## Section 2. Termination of the plan.

  - 3. For each active participant the amount of his accrued benefit.
- B. The provider shall arrange for the liquidation of all assets held in the trust fund maintained in connection with the plan and shall prepare a statement of the liquidated value of such assets. All employees covered by the 4022 plan are in the public safety portion of the plan, and that portion of the plan and any contributions thereunder remains in full force and effect. The city shall notify the provider with

written notice that the 4022 plan for general employees has been terminated. The employees shall have no further rights or claim to the 4022 plan for general employees.

- B. The plan shall be construed in accordance with the laws of the State of Georgia.
- C. In the event that any section, subsection, sentence, clause or phrase of this agreement shall be declared or adjudged invalid or unconstitutional, such adjudication shall in no manner affect the previously existing provisions or the other section or sections, subsections, sentences, clauses, or phrases of this agreement, which shall remain in full force and effect, as if the section, subsection, sentence, clause or phrase so declared or adjudicated invalid or unconstitutional were not originally a part hereof. The governing authority hereby declares that it would have passed the remaining parts of this agreement or retained the previously existing provisions if it had known that such part or parts hereof would be declared or adjudicated invalid or unconstitutional.

### Section 2. Non-alienation of benefits.

None of the benefits, payments, proceeds, or distributions payable under the plan shall be subject to the claim of any creditor of any participant or to the claim of any creditor of any beneficiary hereunder, or to any legal process of levy or attachment by any creditor of any such participant or beneficiary; and no such benefits shall be in any manner liable for or subject to the debts, liabilities, engagements, or torts of any participant or beneficiary, and neither any such participant or beneficiary shall have any right to alienate, commute, anticipate, transfer, encumber, pledge or assign any of the benefits, payments proceeds, or distributions under the plan. If any participant or beneficiary shall become bankrupt or attempt to anticipate, assign or pledge any benefits, then such benefits shall, in the discretion of the pension board, cease, and in that event the pension board shall have authority to cause the same, or any part thereof, to be held or applied to or for the benefit of such member, his spouse, his children, or other dependents, or any of them, in such manner and in such proportion as the pension board may think proper.

### Section 3. Legally incompetent.

Any participant or beneficiary receiving or claiming benefits under the plan shall be conclusively presumed to be mentally competent and of age until the pension board receives a written notice, in a form and manner acceptable to it, that such person is incompetent or a minor, and that a guardian or other person legally vested with the care of his estate has been appointed. In the event that the pension board finds that any person

to whom a benefit is payable under the plan is unable to properly care for his affairs, or is a minor, then any payment due (unless a prior claim therefor shall have been made by a duly appointed legal representative) may be paid to the spouse, a child, a parent, or a brother or sister, or to any person deemed by the pension board to have incurred expense for such person otherwise entitled to payment. In the event a guardian of the estate of any person receiving or claiming benefits under the plan shall be appointed by a court of competent jurisdiction, payments shall be made to such guardian provided that proper proof of appointment is furnished in a form and manner suitable to the pension board. Any payment so made shall be a complete discharge of liability therefor under the plan.

#### Section 4. Benefits supported only by trust fund.

Any person having any claim under the plan will look solely to the assets of the trust fund for satisfaction. In no event will the city, or any of its employees or agents, be liable in their individual capacities to any person whomsoever, under the provisions of the plan.

#### Section 5. Discrimination.

The city, through the pension board, shall administer the plan in a uniform and consistent manner with respect to all participants and shall not permit discrimination in favor of supervisory or highly paid employees, elected or appointed members of the governing authority, the chief legal officer or any associate legal officer of the city, or any municipal officer elected or appointed to preside over the court of said city.

#### Section 6. Limitation of liability; legal actions.

- A. It is expressly understood and agreed by each employee who becomes a participant hereunder that, except for its or their willful neglect or fraud, neither the city, the pension board, nor the provider shall be in any way subject to any suit or litigation, or to any legal liability, for any cause or reason or thing whatsoever, in connection with the plan or its operation, and each such participant hereby releases the city, all its employees and agents, the pension board, and the provider from any and all liability or obligation.
- B. To any action or proceeding involving any rights under the plan or the proper administration thereof, the city and the pension board shall be the only necessary parties and no participant, or his beneficiary, or any other persons having or claiming to have an interest in the plan shall be entitled to any notice or process. Any final judgment which is not appealed or appealable that may be entered in any such action or proceeding shall be binding and conclusive on the parties hereto and all persons having or claiming to have an interest in the plan.

#### Section 7. Claims.

Any payment to a participant, or beneficiary, or to their legal representatives, in accordance with the provisions of the plan, shall to the extent thereof be in full satisfaction of all claims hereunder against the pension board or the city, either of which may require such participant, beneficiary, or legal representative, as a condition precedent to such payment, to execute a receipt and release therefor in such form as shall be determined by the pension board or the city, as the case may be.

## Section 8. Application for benefits.

Any provision in the plan to the contrary notwithstanding, benefits may become payable only after the participant, beneficiary, or their legal representative, whichever is applicable, has made written application therefor to the pension board. Benefits for which no such application has been made within three (3) years following the date of entitlement to such benefits shall be forfeited. In no event shall any forfeitures be applied to increase the benefits any participant or beneficiary would otherwise receive under this plan.

## Section 9. Forfeiture for certain crimes.

A. Participation in the Plan for any Employee in service on July 1, 1985, who is convicted of a public employment related crime (as defined in O.C.G.A. 47-1-20) on or after July 1, 1985, in the capacity of an Employee, shall terminate on the date of final conviction in accordance with O.C.G.A. 47-1-21.

Payment of such benefits shall cease until such amount has been forfeited, after which benefits shall be restored. If the person has not begun to receive a benefit, the deduction shall commence at the time such benefits would normally begin. For purposes of this subsection, the term "benefits" shall not include a refund of employee contributions without interest.

C. Except as otherwise provided in this subsection, any Employee hired or re-hired after July 1, 1990, who is not vested under the Plan and who is convicted of a drug related crime (as defined in O.C.G.A. 47-1-20) shall forfeit all rights and benefits under and membership in the Plan, effective on the date of final conviction. If an Employee who is vested under the Plan commits a drug related crime, such employee's active membership in the Plan shall terminate on the date of final conviction.

D. Nothing in this section shall be construed to create a right for the Employee who is charged with the commission of a public employment or drug related crime to accrue rights or benefits under this Plan after the date the Employee ceases to be a member of the Plan.

E. Within 30 days following the day the Pension Board receives notice that a member of the retirement system has a final conviction for a public employment related crime, the Pension Board shall initiate proceedings in the Office of State Administrative Hearings, under the provisions of O.C.G.A. 47-1-25 and O.C.G.A. 50-2-13, to determine the economic impact of the employment related crime. The State Department of Law shall represent the Pension Board in such proceedings. The decision of the

administrative law judge shall be final unless appeal is made as otherwise provided by law.

F. For purposes of this Section 9, a final conviction does not include circumstances under which a first offender is exonerated from guilt and discharged as a matter of law after successful completion of sentencing.

G. Notwithstanding any provision of this Section 9 to the contrary and to the extent permitted by applicable law, with respect to Employees hired or re-hired after July 1, 1985, who committed a public employment related crime before July 1, 2008, the City reserves the right to require forfeiture of all rights and benefits under the Plan in accordance with the provisions of O.C.G.A. ARTICLE XIV  
Maximum Benefits <sup>[4]</sup>

Section 14.01. General rule.

The annual benefit payable under this plan to a participant at any time shall not exceed the maximum permissible amount. "Maximum permissible amount" shall mean \$90,000.00 (\$160,000.00, effective for limitation years beginning on and after January 1, 2002), as adjusted by the Secretary of the Treasury for each calendar year, with the new limitation to apply to limitation years ending within the calendar year of the date of the adjustment (the "dollar limitation").

Section 14.02. Reduction for less than ten years of participation or employment.

If the annual benefit commences when the participant has less than ten years of participation in this plan or any predecessor plan to this plan, the dollar limitation shall be reduced by one-tenth for each year less than ten, but in no event shall be less than one-tenth of the unreduced dollar limitation.

Section 14.03. Adjustment if the annual benefit commences before age 62 or after age 65.

If the payment of benefits under this plan commences before age 62 or after age 65, the dollar limitation shall be adjusted as provided in this section 14.03.

Generally, the age-adjusted dollar limitation is the actuarial equivalent of the dollar limitation payable at age 62 or age 65, as calculated under (i) or (ii) following, whichever is applicable:

- (i) If the age at which the benefit is payable is less than 62: First, reduce the dollar limitation using the interest rate and mortality table, or tabular factors, as applicable, which are set forth in the plan for the reduction of benefits for early retirement benefits under the plan. Second, reduce the dollar limitation using 5 percent interest and the applicable mortality table. Use the lesser of the amounts determined under the two preceding sentences as the age-adjusted dollar limitation under this paragraph (i). For limitation years beginning before January 1, 2002, nothing in this paragraph shall reduce the applicable dollar limitation below \$75,000.00 if the annual benefit begins at or after age 55. Also for limitation years beginning before January 1, 2002, if the annual benefit begins before age 55, nothing in this paragraph shall reduce the dollar limitation below the actuarial equivalent of the \$75,000.00 limitation for age 55.

Notwithstanding the preceding paragraph, if a participant is a "qualified participant" (e.g., certain police and firefighters) as defined under Code Section 415(b)(2)(G), such participant may retire before age sixty-two (62), without a

reduction in the dollar limitation if at least fifteen (15) years of service is required to receive a full benefit under the plan.

- (ii) If the age at which the benefit is payable is greater than age 65: The age-adjusted dollar limitation is determined by increasing the dollar limitation on an actuarially equivalent basis. The increased age-adjusted dollar limitation shall be the lesser of the equivalent amount computed using the interest rate and mortality table set forth in Appendix F that is used for actuarial equivalence for delayed retirement benefit under the plan and the equivalent amount computed using 5 percent interest and the applicable mortality table.

#### Section 14.04. Special rules.

- (a) All plans a single plan. For purposes of the maximum limitations of this article, all defined benefit plans maintained by the employer shall be considered as a single defined benefit plan, and all defined contribution plans maintained by the employer shall be considered a single defined contribution plan.
- (b) Combined plan limitations. If the employer maintains, or has any time maintained, one or more qualified defined contribution plans covering any participant in this plan, the sum of the participant's defined contribution fraction and defined benefit fraction shall not exceed 1.0 in any limitation year, and the annual benefit otherwise payable to the participant under this plan, and not the defined contribution plan, shall be frozen or reduced to the extent necessary so that the sum of such fractions shall not exceed 1.0. The combined plan limitation described in the preceding sentence shall not apply for any plan year beginning on or after January 1, 2000.
- (c) Total annual benefits not in excess of \$10,000.00. Notwithstanding anything contained herein to the contrary, the annual benefit payable to a participant shall not be deemed to exceed the limits of this article XIV if the annual benefit payable to the participant under this plan and all other defined benefit plans maintained by the employer does not exceed \$10,000.00 for the plan year or any prior plan year, and the employer has not at any time maintained a defined contribution plan in which the participant participated.
- (d) Exceptions for disability or survivors' benefits. Notwithstanding anything contained herein to the contrary, the adjustment prescribed by section 14.03(i) for benefits that commence before age 62, and the reduction described in section 14.02 for fewer than ten (10) years of participation shall not apply to any benefit paid from this plan on account of a participant's becoming disabled by reason of personal injuries or sickness, or amounts received by a beneficiary as a result of the participant's death. This paragraph shall be interpreted in accordance with Code Section 415(b)(2)(I) and any regulations thereunder.
- (e) Periods prior to 1995. For limitation years beginning before January 1, 1995, the limitations prescribed by Section 415 of the Code, to the extent that they apply to governmental plans, are incorporated herein by reference as of the latest date by which such provisions (if the effective date is elective) may be applied.

## Section 14.05. Definitions.

For purposes of this article XIV, the following definitions shall apply:

- (a) Annual additions means the sum of the following amounts credited to a participant's account under a defined contribution plan for the limitation year:
  - (i) Employer contributions;
  - (ii) Forfeitures;
  - (iii) Nondeductible employee contributions; provided, however, that the annual addition for any limitation year beginning before January 1, 1987, shall not be recomputed to treat nondeductible employee contributions as an annual addition; and
  - (iv) Amounts described in Code Sections 415(l)(1) and 419A(d)(2).

- (b) Annual benefit means a retirement benefit under the plan which is payable annually in the form of a straight life annuity. If a participant's benefit is payable in a non-annuity benefit form, whether as the normal form of benefit or as an optional form which the participant or his beneficiary elects, the non-annuity benefit form is adjusted to an annual benefit as described below. No actuarial adjustment to the non-annuity benefit form is required for (i) the value of a qualified joint and survivor annuity; (ii) the value of benefits that are not directly related to retirement benefits (such as a disability benefit, pre-retirement death benefits, and post-retirement medical benefits); or (iii) the value of post-retirement cost-of-living increases made in accordance with Treasury Regulations.

To convert a non-annuity benefit form to an annual benefit (i.e., a straight life annuity), first convert the non-annuity benefit form to a straight life annuity using the interest rate and mortality table, or tabular factors, as applicable, which are specified in the plan for the non-annuity benefit form. Second, convert the non-annuity benefit form to an annual benefit using a 5 percent interest rate and the applicable mortality table. The greater of the amounts determined under the two preceding sentences is the equivalent annual benefit.

- (c) Applicable mortality table is the table prescribed by the Secretary of the Treasury in Revenue Ruling 95-6 or any successor thereto which prescribes the mortality table to be applied pursuant to Code Section 415(b)(2)(E)(v). To the extent that a forfeiture does not occur upon death, the mortality decrement may be ignored prior to age 62 and must be ignored after Social Security retirement age, as prescribed by IRS Notice 83-10, Q&A G-3 and Q&A G-4, or any successor thereto.
- (d) Compensation means the participant's earned income within the meaning of Treasury Regulation Section 1.415-2(d), as limited by Code Section 401(a)(17) and subject, for Limitation Years beginning prior to January 1, 1997, to the family aggregation rules described in article II, section 24, the definition of "earnings".
- (e) Defined benefit fraction means a fraction, the numerator of which is the sum of the participant's projected annual benefits under all the defined benefit plans

(whether or not terminated) maintained by the employer, and the denominator of which is the lesser of (i) 125 percent of the dollar limitation in effect for the limitation year under Code Section 415(b)(1)(A); or (ii) 140 percent of the participant's highest average compensation. Notwithstanding the foregoing, if the participant was a participant in a plan maintained by the employer and in existence on July 1, 1982, the denominator of this fraction shall not be less than 125 percent of the sum of the annual benefits under such plans which the participant had accrued as of the end of the last limitation year beginning before January 1, 1983, but determined without regard to changes in the plan or cost-of-living increases occurring after July 1, 1982. The preceding sentence applies only if the defined benefit plans individually and in the aggregate satisfied the requirements of Code Section 415 for all limitation years beginning before January 1, 1983.

- (f) Defined contribution fraction means a fraction, the numerator of which is the sum of the annual additions to the participant's account under all the defined contribution plans (whether or not terminated) maintained by the employer for the current and all prior limitation years, and the denominator of which is the sum of the maximum aggregate amounts for the current and all prior limitation years of employment with the employer (regardless of whether a defined contribution plan was maintained by the employer).

The maximum aggregate amount in any limitation year is the lesser of (i) 125 percent of the dollar limitation in effect under Code Section 415(c)(1)(A); or (ii) 35 percent of the participant's compensation for such year.

If the employee was a participant in one or more defined contribution plans maintained by the employer which were in existence on July 1, 1982, the numerator of this fraction shall be adjusted if the sum of this fraction and the defined benefit fraction would otherwise exceed 1.0 under the terms of this plan. Under the adjustment, an amount equal to the product of (1) the excess of the sum of the fractions over 1.0 times and (2) the denominator of this fraction, will be permanently subtracted from the numerator of this fraction. The adjustment is calculated using the fractions as they would be computed as of the end of the last limitation year beginning before January 1, 1983.

- (g) Employer means the City of Marietta, Georgia, or the Marietta Board of Lights and Water.
- (h) Limitation year means the plan year.
- (i) Non-annuity benefit form means a benefit, whether a normal form or an optional form, which is not payable in a straight life annuity for the life of the participant.
- (j) Projected annual benefit means the annual benefit to which the participant would be entitled under the terms of the plan assuming (i) the participant will continue employment until normal retirement age under the plan (or current age, if later), and (ii) the participant's compensation for the current limitation year and all other

relevant factors used to determine benefits under the plan will remain constant for all future limitation years.

## Appendix "A"

The amount of the monthly retirement benefit for service rendered as an eligible employee of the city for purposes of article V, section 1a.2(b) shall be determined as one-twelfth (1/12th) of the sum of (1) and (2) below.

1. Past service—One and one-tenth percent (1.1%) of the final average earnings up to the amount of covered compensation applicable to the participant, plus 2.1% (for participants who terminate active service prior to the effective date of this change, the benefit percentage will remain 2%) of final average earnings in excess of the covered compensation applicable to the participant, multiplied by the total years of credited past service.
2. Future service—One and one-tenth percent (1.1%) of the final average earnings up to the amount of covered compensation applicable to the participant, plus 2.1% (for participants who terminate active service prior to the effective date of this change, the benefit percentage will remain 2%) of final average earnings in excess of the covered compensation applicable to the participant, multiplied by the total years of credited future service plus credit granted pursuant to article II, section 45.

Applicable covered compensation as used in (1) and (2) above shall be determined as follows: For participants who retire or terminate vested in a plan year, covered compensation will be based on that participant's year of attaining normal retirement age.

For purposes of an example only, the following tables are attached hereto as an illustration of the covered compensation tables that will be prepared by the provider or the actuary whichever is directed to do so by the pension board. There will be two tables prepared. In the examples, Table A will be used for Level I employees and Table B will be used for Level II employees. As noted in the new definition of covered compensation, these tables will be updated annually and the tables attached to this ordinance are for purposes of illustration only. If a participant retires or terminates vested in a plan year, you will first determine the year that the participant retires or terminates vested. You will then determine the participant's year of birth which will relate to the year the participant would reach normal retirement age.

Level I example:

Using Table "A" that is provided as an illustration, if a Level I participant retires in 1985 and was born in 1939 and therefore will reach age 55 in 1994, the applicable covered compensation would be \$20,436. This example is applicable to a Level I participant that retires, early retires or terminates vested.

Level II example:

Using Table "B" that is provided as an illustration, if a Level II participant has terminated vested in 1984 and was born in 1931, the applicable covered compensation would be \$21,852.

**Editor's note**— Section 2 of Ord. No. 5922, deleted App. B of § 4-12-4-010, which pertained to early retirement reduction factors and derived from Ord. No. 4022, adopted Feb. 8, 1984; and Ord. No. 4106, adopted Nov. 14, 1984.

Appendix "C"  
Calculation of Benefits Under Social Security Option

The following tables should be used to determine the social security adjustment option benefit. The benefit is an increased monthly benefit payable from retirement date to the commencement of social security, and decreased benefits after such date. The amount of the increased benefit is equal to (a) the monthly benefit the participant would have received at that retirement age, plus (b) his social security amount multiplied by a percentage from Table A-1. If the above amount so determined is less than the participant's social security amount, then the increased benefit is equal to (a) the monthly benefit the participant would have received at that retirement age, multiplied by (b) the appropriate percentage from Table A-2. It should be noted that the participants' expected social security benefit will be determined from tables supplied by the provider. The following examples illustrate how these tables should be applied for both general employees and policemen/firemen.

Example 1:

Policemen/firemen

Normal retirement age: 55

Actual retirement age: 55

Monthly benefit at NRA: \$500

Estimated primary social security amount at age 62: \$475

Social security commencement date: At age 62

Increased benefit up to age 62:  $\$500 + (.628) \$475 = \$798$

Reduced benefit after age 62:  $\$798 - \$475 = \$323$  \*\*

\*Early retirement factor

\*\*The reduced benefit at age 62 will be adjusted with the same percentage COLA increases that occurred from actual retirement.

## Calculation of Death Benefits:

The above table should be used to determine the number of monthly payments any designated beneficiary should receive under article VII, section 2.

If the participant is 56 years of age or older at the time of death, and has already received monthly retirement benefits, the number of monthly retirement benefits received prior to death shall be deducted from the total number of monthly payments expected to be received at retirement age. The remaining number will represent the total number of monthly benefits for the designated beneficiary.

For purposes of calculating benefits under this table, any participant shall be deemed to be not less than 56 years of age at retirement, regardless of when the participant actually retired or became eligible for any retirement benefits. However, in the event the actual age of the participant is less than 56 at retirement, there shall be no deduction for monthly payments actually received by the participant.

Notwithstanding the table set forth in this Appendix "E", any designated beneficiary shall receive a minimum of 24 monthly death benefits following the death of the retiree.

Example: If a participant retires at age 61, his expected number of monthly retirement benefits is 160.10. This figure is rounded off to 160 and represents the total number of monthly payments the participant is expected to receive at retirement. If the participant dies after 8 years and 5 months (101 payments), the designated beneficiary would receive the remaining number of monthly benefits, same being 59 months (160-101 = 59).
