# LETTER FROM THE CHIEF

---

2024 was a year of metamorphosis for the Marietta Police Department. The department started the year out with 29 sworn vacancies. Through a great deal of innovation, hard work and determination, the department ended 2024 at full staff within the sworn ranks. Many civilian police employees were hired in 2024 as well. That excellent outcome brought forward a greater challenge – assimilating those new hires into the department's culture and ensuring they were properly trained. The officers and staff of the department met the challenge, and we are on our way to fully achieving that task.

While working diligently to fill vacancies and train new officers and staff, the department also had a number of defined goals in 2024 which were achieved. Those goals included:

- Enhance Internal Procedures
- Prevent and Reduce Crime
- Expand Evidence-based Policing Initiatives in the Uniform Patrol Division
- Enhance Employee Development
- Enhance and Emphasize Recruitment

Many of the department's officers and staff also realized personal goals in 2024. In addition to numerous promotions throughout the year, eight achieved a college degree and three achieved senior police officer status.

With the personnel allocation changes brought forth by 2024, the department took the opportunity to restructure. The department brought back three true divisions by creating a third deputy chief position and placing a different deputy chief in command of each of the department's three divisions. In order to emphasize training and support of our influx of new officers, Uniform Patrol was restructured to form it primarily into the three uniform shifts, the Public Safety Ambassador program and the Prisoner Transport program. Most of the department's specialized units were relocated to the Investigative Services Division to allow resources to be combined to target problems within the city as they developed. In addition, the department created a Wellness Officer position to support our personnel. The position was the first of its kind in Cobb County.

Despite the challenges faced by the department, 2024 we once again saw a decrease in crime for the City of Marietta. Crimes against property saw a very significant decrease of 23% while crimes against persons dropped 1%.

As 2025 begins, we look forward to the challenges to come, and we are ready to face them head-on with enthusiasm, positivity and the will to conquer any issues that come our way.

David Beam – Chief of Police

# M-STAR

(MARIETTA STRATEGICALLY TARGETING AREAS WITH RESOURCES)

## BACKGROUND

---

The M-STAR program was developed in 2000. The Marietta Police Department realized that more needed to be done to create a greater problem-solving partnership between the community and the police department. M-STAR is a way of policing that involves citizens, police officers, business owners, real time crime analysis, deploying manpower and follow-up. The initiative was originally planned to be a police department program but developed into a citywide philosophy. The purpose of M-STAR is to identify needs, issues, and concerns within the community and develop plans of action to address them.

## ACCOUNTABILITY

---

The majors are responsible for the mitigation of quality-of-life issues and illegal activity within their assigned zones. Crime statistics are analyzed monthly to identify crime spikes and problem areas. Town Hall meetings are held regularly in each zone, and all residents and business owners are invited to attend and to actively participate. These meetings are designed to distribute information and provide community members the opportunity to voice any needs, issues or concerns they have, as well as helping to develop solutions for them. The majors then develop plans to address identified problems. Once a month, the majors meet with Chief Beam and the deputy chiefs to review crime statistics, and the progress made on previously voiced concerns. The majors must be able to demonstrate how they are actively working on solutions to crime spikes and how they are resolving the action items they have received since the previous meeting.

# M-STAR

(MARIETTA STRATEGICALLY TARGETING AREAS WITH RESOURCES)

## COMMUNITY CONCERNS

---

Citizens may submit needs, issues, and concerns, directly to the department via mail, phone, email, or the online Citizen Request program. The Zone Major is responsible for responding to the citizen and overseeing the plan to address the situation. The majors track the progress of the actions being taken and maintain communication with the citizen for as long as needed.

## BENEFITS

---

The M-STAR program has proven to be an effective tool in building relationships between neighbors, businesses, and police officers. Police officers get to know citizens, and citizens get to know officers. The increased interaction builds trust and encourages two-way communication. In the coming years, we will be able to utilize the crime statistics, which are being gathered now, to forecast crime. The goal is to forecast potential crime activity and deploy manpower and resources to reduce the opportunity for criminal activity and remove it from the city.

# 2024 CRIME DATA

The following crime data shows reported incidents categorized in accordance with a statistical data collection system administered by the U.S. Department of Justice called the National Incident-Based Reporting System (NIBRS). In September 2019, the Marietta Police Department joined police departments across the nation in transitioning from the Uniform Crime Reporting (UCR) to the now federally mandated NIBRS crime reporting system. NIBRS includes more crime categories and requires additional data elements than what were previously reported in years past with the UCR system.
