
City of Marietta 4022 Retirement Plan Summary

Note: This information is intended only as an aid in highlighting the major points of the City of Marietta 4022 Retirement Plan (a closed retirement plan). The actual Municipal Code of Marietta and applicable state and federal laws shall govern in the event of any discrepancies. The City reserves the right to amend the plan with the approval of the City Council. (Note: Summary updated March 2021)

Eligible Employees:

The effective date of the 4022 Retirement Plan is November 1, 1973. All regular, full-time employees and elected and appointed officials hired before March 1, 1987, were eligible to participate in the 4022 Retirement Plan. Eligible employees were offered two election periods to participate in the Consolidated Retirement Plan: March 1, 1987 to May 29, 1987, and a 30-day period during calendar year 1999.

Contributions:

Participants shall not be required to make any contributions to the cost of the plan.

Vesting:

Employees are vested after five (5) years of credited service.

Final Average Earnings:

Final average earnings shall mean the average of the annual earnings paid to a participant during any consecutive three (3) year period preceding his actual date of retirement in which his earnings were highest; or if he had less than three (3) years of total credited service, then his final average earnings shall be his average earnings for his total credited service.

Eligibility for benefits:

Normal Retirement:

A Level 1 participant who has completed a minimum of five (5) years of total credited service is eligible to retire with a normal retirement benefit at age fifty-five (55) (police officers and firefighters). A Level 2 participant who has completed a minimum of five (5) years of total credited service is eligible to retire with a normal retirement benefit at age sixty-five (65) (general employees or police officers and firefighters hired on or after November 12, 1986). A Level 2 participant who has completed a minimum of ten (10) years of total credited service is eligible to retire with a normal retirement benefit at age sixty-five (65) (elected or appointed members of the governing authority).

The monthly amount of normal retirement for participant's benefit shall be equal to the higher of 1.33% of the participant's final average earnings multiplied by the years of credited service or one and one-tenth percent (1.1%) of the final average earnings up to the amount of covered compensation applicable to the participant, plus 2.1% (for participants who terminate active service prior to December 12, 2001, the benefit percentage will remain 2%) of final average earnings in excess of the covered compensation applicable to the participant, multiplied by the total years of credited service.

Early Retirement:

A Level 1 participant who has completed a minimum of five (5) years of total credited service is eligible to retire with an early retirement benefit at age forty-five (45) (police officers and firefighters). A Level 2 participant who has completed a minimum of five (5) years of total credited service is eligible to retire with an early retirement benefit at age fifty-five (55) (general employees, elected and appointed officials of the governing authority, or police officers and firefighters hired on or after November 12, 1986).

A participant who elects to retire on his early retirement date shall receive either:

A. The amount of each monthly retirement benefit for early retirement shall be computed in the same manner as for a normal retirement benefit, but the benefit so computed shall be reduced by .167% (.00167) for each full month retired early from age fifty-five (55) (Level 1) or sixty-five (65) (Level 2); or

B. A delayed monthly retirement benefit under which payment shall commence on the first day of the month coinciding with or next following the retired participant's fifty-fifth (55th) birthday if such participant is a Level 1 employee, or sixty-fifth (65th) birthday if such participant is a Level 2 employee, and shall be payable on the first day of each month thereafter during the lifetime of the participant. The amount of each monthly retirement benefit shall be computed in the same manner as for a normal retirement benefit.

Alternate Retirement Date:

A participant may elect an alternate retirement option based on the eligibility requirements for an unreduced early retirement under the Consolidated Retirement Plan for the Employees of the City of Marietta, Georgia. A participant may retire from the service of the city at any time after the date that the sum of his age and credited service equals at least 80.

Disability Retirement:

A participant will be considered disabled if unable, solely because of disease or accidental bodily injury, to work at his or her own occupation or at any reasonable occupation for which the participant may be engaged, or may reasonable become engaged, fitted by education, training or experience provided, however, that such disability shall not have been (a) self-inflicted; (b) incurred in military service; (c) incurred in the commission of a felonious enterprise; or (d) the result of the use of narcotics and/or drugs and/or alcohol.

The monthly amount of disability retirement benefits shall be determined in the same manner as normal retirement benefits. In no event, however, shall the benefit be less than 50% of the average of the participant's most recent 12 months of earnings.

Delayed or Late Retirement Benefit:

Level 1 participants who retire on or after age 56 and Level 2 participants who retire on or after age 66 will have their normal benefit multiplied by a factor that is more than 100%.

Death Benefits:

If a participant dies prior to retirement, his beneficiary shall receive a monthly death benefit actuarially equivalent to the participant's anticipated normal retirement benefit assuming that his age at the time of his death is fifty-five (55) if he is a Level 1 employee, or sixty-five (65) if he is a Level 2 employee; the benefit shall be computed in accordance with actuarial tables within the plan document based on the age of the beneficiary. If a participant dies after retirement, the benefit will be calculated by subtracting the number of retirement payments received from the number of expected retirement payments received. Notwithstanding that calculation, the beneficiary will receive a minimum of 24 months of death benefit payments.

Unused Sick Leave or Military Duty:

New retirees will be credited with additional service for benefit calculation purposes only (this additional credit will not be used to satisfy any eligibility criteria for plan benefits) for either unused sick leave or for active duty federal military service prior to becoming an employee of the City of Marietta/BLW, whichever is greater, to a maximum of one year.

Cost of Living Increases:

Each monthly retirement benefit for Level 1 participants shall be increased by a percentage equal to the percentage representing the current average cost-of-living index figure divided by the current average cost-of-living index figure from the most recent August 1 annual adjustment. If the current average cost-of-living index figure is less than the average cost-of-living index figure determined on August 1 of the previous calendar year, the monthly retirement benefit will not be reduced. Notwithstanding the foregoing provisions, no increase in the amount of a monthly retirement benefit due to changes in the current average cost-of-living index figure effective at any August 1 annual adjustment date shall be in excess of an average increase of four percent (4%) of the amount of the monthly retirement benefits payable immediately prior to such participant's or beneficiary's applicable adjustment date.

Additional Retirement Benefits:

Retiree Life Insurance – If you had city-funded, basic life insurance in effect at the time of retirement, the amount of your basic life benefit will be \$20,000.

Health Care Coverage – If you were hired before August 14, 1991, and did not leave the city as a terminated vested employee, the City/BLW will contribute 100 percent of the calculated premium cost of retiree health care coverage. The City/BLW will not contribute to the calculated premium cost of retiree dependent coverage except that the calculated premium cost to the retiree if he/she elects to cover such dependents will be frozen at time of retirement.

This is an overview of the 4022 Retirement Plan. You may obtain a complete copy of the plan from the MuniCode website located at https://www.municode.com/library/ga/marietta/codes/code_of_ordinances. Once there, go to Article 4-12-4.

For all other employees who are in the Consolidated Retirement Plan, you may obtain a complete copy of the plan from the above website by finding Article 4-12-6.

If you have questions regarding either plan, contact the Benefits Division at 770-794-5562, option 3.

Normal Retirement Benefit Estimate for Plan 4022

Age 65 (Level 2): General Employees or Police/Fire hired between November 12, 1986 and February 28, 1987

Age 55 (Level 1): Police/Fire hired prior to November 12, 1986

1. Total of highest 36 months of regular earnings: _____

2. Divide amount in number 1 by 36 to determine final average earnings (FAE):

3. Determine covered compensation (CC) amount from table. Divide the covered compensation amount by 12. Compare covered compensation to final average earnings.

FAE: _____

CC: _____ (if CC is equal to or greater than FAE, then go to number 8)

Difference equals: _____

4. Covered compensation multiplied by .011 equals: _____

5. The difference between FAE and CC multiplied by .021 equals: _____

6. Add the results in numbers 4 and 5 to determine unit benefit (UB): _____

7. Multiply unit benefit by total service to determine the normal retirement benefit.

UB: _____

* Service: _____

Normal Retirement Benefit: _____

* May be eligible for an addition of up to 1 year of service for prior active military service or unused sick leave

8. Multiply FAE by .0133 (1.33%) to determine unit benefit (UB): _____

9. Multiply unit benefit by total service to determine the normal retirement benefit.

UB: _____

Service: _____

Normal Retirement Benefit (NRB): _____

Early Retirement Benefit Estimate for Plan 4022

Age 55 (Level 2): General Employees or Police/Fire hired between November 12, 1986 and February 28, 1987

Age 45 (Level 1): Police/Fire hired prior to November 12, 1986

The Early Retirement Benefit is determined by reducing the normal retirement benefit by .00167 (.167 %) for each full month age is less than 65 years at retirement.

- a. Normal Retirement Benefit: _____
- b. 1.00 (or 100%) minus reduction factor: _____
- c. NRB multiplied by the difference in b above equals: _____

Delayed/Late Retirement Benefit (Level 1: Police/Fire hired before November 12, 1986)

The delayed retirement benefit is determined by multiplying the normal retirement benefit by the appropriate factor.

Normal retirement benefit (NRB): _____

Delayed retirement increase factor: _____

Delayed Retirement Benefit: _____
